Location
Aldea Barcena, 51,
33314 Bárcena, Asturias

Description
The centre is built on a plot with a gross floor area of 17,000 m^2, including an office and laboratory building. Internet and Web of Things (IoT/WoT), smart data analysis, advanced artificial intelligence algorithms, blockchain, image processing (artificial vision) and immersive reality technologies (virtual reality, augmented reality and mixed reality) are applied, among others.

Uses and applications
Validation, developments and solutions based on digital technologies with an impact and with the aim of innovating in the rural environment.

Equipment classification
Pilot plan.

Associated services
- Proofs of concept for experimentation in technologies for Industry 4.0 through Blockchain.
- Proofs of concept for experimentation in technologies for rural areas.

Equipment code
N2.7

Service code
E.13
E.14
