Description

Demo system for yield sensor systems used in agriculture (TRL3-4), in which different technologies of Industry 4.0 are tested (robotics, artificial vision, sensors, data analysis, etc.).

Uses and applications

Availability of crop, environmental, etc. data to analyse such data and improve crop yield and decision-making processes.

Equipment classification

Demo units.

Associated services

Feasibility study on the sensorisation of complex processes.

Equipment code

N2.14

Service code

E.19
