# MarkTwo unit

## Additive manufacturing

### Description

3D printing unit that uses nylon, onyx (fibreglass reinforced nylon), Kevlar, carbon fibre, fibreglass or HSHT (High Strength High Temperature) fibreglass.

### Uses and applications

Used for defence, aerospace and medical applications or parts with high mechanical requirements.

### Equipment classification

Demo units.

### Associated services

- Technical feasibility analysis of component manufacturing using additive manufacturing technologies.
- Preliminary tests on new additive manufacturing processes.
- Preliminary feasibility study for the development of new materials for additive manufacturing.
